Industry Experience Shapes Every Solution

NCI Global:

New Century Integration

NCI Global Pte. Ltd. is founded in Year 2020 by a team of experienced tank container and depot management professionals.

Our founder and team bring industry experience dated back to 1987, with extensive expertise in ISO tank depot operations, repair and maintenance, tank and parts trading, and many other tank-related activities.

With our experience and technical expertise, we help both new and existing depots improve operational standards, efficiency safety while meeting applicable regulatory and industry requirements.

We provide customised solutions tailored to each depot's operational needs – from equipment and software to training, tank modifications, depot development and process improvement.

VISION

To be a trusted global partner in the ISO tank industry, delivering innovative, sustainable and practical solutions that help our customers operate safer, cleaner and more efficiently.

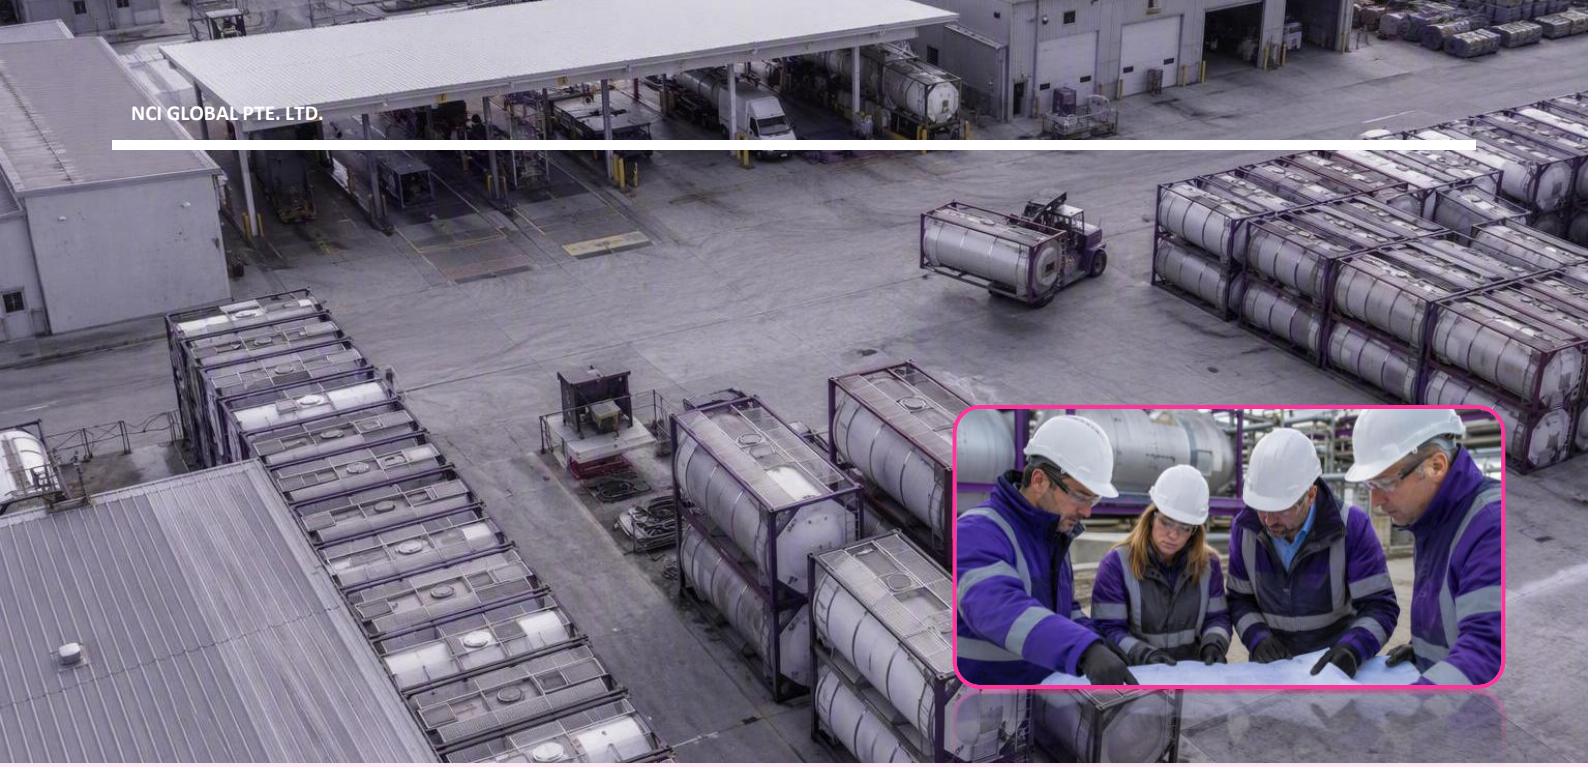

Through technology, industry expertise and continuous improvement, we aim to create long-term value for our customers and contribute to the advancement of the global ISO tank industry.

MISSION

To deliver safe, reliable and cost-effective ISO tank solutions through industry experience, practical expertise and innovative technology.

We are committed to being a trusted long-term partner, helping our customers achieve safer, cleaner and more efficient operations through customised solutions, continuous improvement and sustainable practices.

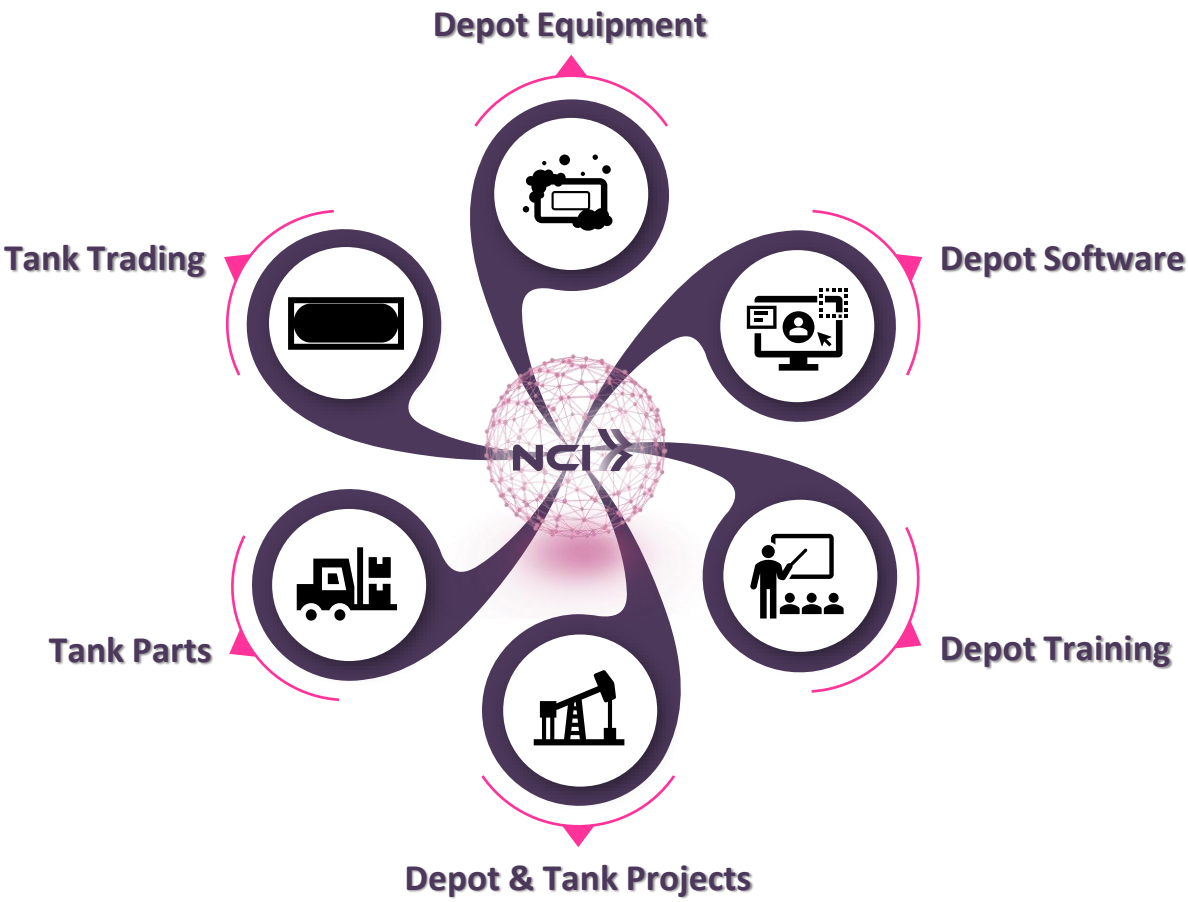

CHANGING THE WORLD WITH TECHNOLOGY

One Partner Across the Entire ISO Tank Depot Lifecycle

NCI Global combines technical expertise, operational experience and innovative solutions to help new and existing depots improve safety, efficiency and overall operational performance.
